Letter of Transmittal

Helena, Montana

December 9, 1968

To His Excellency, Governor Forrest Anderson
and Members of the Forty-First Legislative Assembly
of the State of Montana:

In compliance with the duty imposed upon the Board by Section 84-708(18) of the Revised Codes of Montana of 1947, the Montana State Board of Equalization herewith submits its Biennial Report for the period July 1, 1966 to June 30, 1968.

STATE BOARD OF EQUALIZATION,

Howard H. Lord, Chairman

John C. Alley

J. Morley Cooper

To His Excellency, Governor Forrest Anderson and Members of the Forty-First Legislative Assembly:
Gentlemen:

The State Board of Equalization hereby brings to the attention of the Governor and the Legislature those tax administration problems deemed most urgently requiring legislation.

GENERAL PROPERTY TAX

With the exception of licensed vehicles, the listing of tangible and intangible personal property by county assessors is incomplete and erratic and therefore provides an inequitable basis for property tax assessment.

The 1957 Classification and Appraisal Act transferred the duty of real estate appraisal from the county assessors to the boards of county commissioners. While much improvement in real estate assessment has been accomplished under this Act, problems still exist. Suggested approaches to both personal property and real estate assessment problems based on studies and experience in Montana and other states include the following:

1. The Legislature could require that the State Board of Equalization establish the professional qualifications of assessors and county appraisers and certify candidates as to their fitness for employment on the basis of examinations, and to revoke such certification for good and sufficient cause.
2. The machinery for employment of qualified and certified assessors might be provided for as follows:
 - a. Require by legislation that each assessor's office have at least one certified person. If the assessor is not certified it would be necessary to employ a person who is. (Oregon has such a law.)
 - b. Amend the Montana Constitution to eliminate reference to the elective office of county assessor; thus permitting certified county assessors to be appointed by boards of county commissioners.
 - c. Such a change in the Constitution could also be designed to permit two or more small counties to operate a consolidated assessment office.
3. Assessors could be elected or appointed to office with no requirement of prior county residence, for indefinite, rather than fixed terms, and could be subject to removal for good cause, including incompetence, by the boards of county commissioners.
4. To avoid obstruction to the recruitment and retention of competent professional personnel, the state legislature should not set, or place limits on, salaries paid county assessors.
5. State assessment could be extended from including only inter-county property as at present to include property which: (a) requires appraisal specialists beyond the economic scope of most county staffs, and (b) which can be more readily discovered and valued by a central agency.
6. The State Board of Equalization in cooperation with state education institutions could provide for pre-entry and in-service assessor and appraising training programs.

7. Montana's Constitution could be amended to permit the legislature to change the property tax laws to eliminate features that are impossible to administer as written, whose effective administration would be economically intolerable, which force administrators to condone evasion, and which encourage taxpayer dishonesty. To protect the integrity of the property tax the Montana legislature should not retain in the property tax base any type of property for which it is unwilling or unable to provide the means for competent assessment.

8. The incentive for underassessment by counties created by the school foundation program could be eliminated, by basing state school foundation payment on values determined by the State Board of Equalization rather than upon taxable values determined by county officials. Several states have such legislation. However, implementation of such a law would require much expansion of the state's sales-assessment ratio studies and appraisal program. Upgrading of local assessment by professionalizing the county assessment function would still be needed.

Because real estate assessment is only one of many duties of county commissioners, and moreover because county commissioners in many counties only meet a few days each month, it has proven impossible for some boards of county commissioners to devote the attention and resources to real estate appraisal and appraisal record maintenance that is needed. The result is that in several instances neither the appraisals nor the records to support them are properly maintained. Further, under the existing separation of duties, there is frequently an inevitable duplication and lack of coordination in property tax assessment. The appraisal of industrial property involving both real estate and personal property is an example. If the above suggested steps were taken to professionalize assessment personnel, further improvement in real estate assessment and considerable efficiency might be gained by putting the real estate assessment function into the professionalized assessor's office.

No Montana county, nor the State Board of Equalization, employs a salaried industrial appraiser. Yet the boards of county commissioners are responsible for assessing the real estate and county assessors are responsible for assessing the personal property owned by large and complex industries, and the State Board of Equalization is charged with maintaining equity in assessments between counties and between different types of property. A few counties have hired fee appraisers or appraisal firms for specific appraisal assignments, but the high cost of such services has resulted in a limited use of these services and a lack of adequate appraisals on industrial property. The State Board of Equalization has no adequate way of knowing on a statewide basis if industrial properties are properly assessed. Comparable sales used to measure assessment levels on residential property are not available for industrial property or, in some cases, large commercial properties.

The state tax departments in all other northwest states have industrial appraisal divisions. The Idaho State Department of Revenue has five industrial appraisers.

We have recommended that provision be made for at least one industrial appraiser in the next biennium. Activity in this area should be expanded until it is possible for the State Board of Equalization to know if all industrial property in the state is properly appraised for tax assessment purposes.

PERSONAL INCOME TAX

The Montana personal income tax law is presently structured so as to make it advantageous to taxpayers to itemize personal deductions and for married couples to file separate returns when eligible. Both of these features decrease the effectiveness of auditing personal deductions, and the separate returns create an inequity between married couples splitting income and other taxpayers. Moreover, additional inconvenience and expense is incurred by taxpayers because of the need to itemize personal deductions and file separate returns in order to minimize their legal tax liability, since the Federal income tax does not offer the same advantages to these practices. For these reasons it is recommended that legislation be enacted to make it advantageous for most taxpayers to use standard deductions and for most married couples to file joint returns. This could be accomplished either by making the Montana Personal Income tax liability a flat percentage of the Federal Income Tax liability or by other changes in the Montana Income Tax law.

CORPORATION LICENSE TAX

House Resolution No. 29 of the Fortieth Legislative Session directed the State Board of Equalization

"to report the action taken as directed by this resolution to the Legislative Council as information becomes available and to the Forty-first Legislative Assembly together with recommendations for additional suggested improvements which require legislation."

Written recommendations to improve the administration of the Corporation License Tax were sent to the Legislative Council on June 11, 1968.

CORPORATION LICENSE TAX

In compliance with the State Board's recommendations the federal tax was eliminated as a deduction by the 1959 Legislature. This has resulted in additional corporations being required to pay in excess of the minimum filing fee.

	1967	1968
Total taxpaying corporations	7,399	7,650
Those paying only minimum fee	3,151	4,030
Number of small business corporations	1,508	1,614
Total revenue collected	\$7,537,809	\$7,328,704
Deficiency audits	\$ 93,161	\$ 122,187

Effective with taxable years ending on and after 2-28-67 tax rate on corporation increased from 5% to 5½%. 64% of corporation tax is credited to the General Fund.

INDIVIDUAL INCOME TAX

In the individual income tax division some amendments to the present statutes are in order and should be considered at the 1969 Legislative session.

	1967	1968
Net Collections for Fiscal Year.....	\$24,244,261	\$29,573,652

70% of these collections are credited to the State General Fund.

INHERITANCE TAX

Inheritance tax collections were:

For fiscal year ending June 30, 1967.....	\$2,804,849.98
For fiscal year ending June 30, 1968.....	2,875,722.22

TOTAL

.....	\$5,680,572.20
New Cases filed during biennium.....	9,215
New Cases closed during biennium.....	7,915

All inheritance tax collections are transferred to the State General Fund.

CHAIN STORE LICENSE TAX

The chain store license statute requires a graduated license fee on all stores doing business within Montana. Under amendments effected by the 1955 Legislature, operators of establishments of this nature who fail to renew their license by March 1st of each year are penalized by being assessed double the original fee. New stores opening for business after September 1st of any calendar year need not apply for license until January 1st of the succeeding year. The 1965 Legislative Assembly eliminated the 50¢ filing fee and increased each license by one dollar. All collections are for the State General Fund.

CIGARETTE LICENSE TAX

Chapter 56, Title 84 R.C.M. 1947, requires that each dealer in cigarettes, whether wholesale or retail, obtain a license from the Board of Equalization before any sales are made. These licenses are permanent during the life of the firm to which issued unless revoked by the Board. License must be returned for cancellation if cigarette sales are discontinued.

A cash bonus for Montana World War II Veterans was provided for by Initiative No. 54 above the original requirements of Chapter 56. The funds thus accrued to be financed by an additional per cigarette package tax of 2¢ above the original requirements of Chapter 56. The funds thus accrued to be credited to the World War II Veterans Compensation Fund.

The 1957 Legislature amended Initiative Measure No. 54 to provide for an honorarium payment to Montana Veterans of the Korean War. This to be financed by another additional 1¢ tax per cigarette package. Funds so collected to be credited to the War Veterans Compensation Korean Fund.

Chapter 222, 1957 Session Laws provided for an excise tax of 5¢ per cigarette package. Funds so collected are subject to an 8% discount to dealers, the remainder to be credited to the State General Fund. No discount allowable on funds collected for the War Veterans Compensation Fund.

Chapter 270, 1963 Session Laws further amended Initiative Measure No. 54 to provide for an honorarium payment to Montana veterans of World War I, this to be financed by the continuation of the existing tax previously levied.

Chapter 318, 1967 Session Laws authorized the levy and collection of the three cent (3¢) per package cigarette tax, under Section 5606, Subsections 3 and 4, 1947, for the cost of constructing and remodeling state buildings and the issuance of bonds to provide funds for the payments or redemption of outstanding War Veteran's Compensation Bonds issued pursuant to Initiative No. 54 and amendments thereto.

GASOLINE PRICES

In compliance with Chapter 137, Session Laws of 1957, we have listed gasoline prices as quoted in 55 cities across the nation. Column one is the tank wagon, or so-called wholesale price to the retail outlets or ordinary bulk users. Column two combines this price, with the local dealer markup to complete the retail price less tax. Column three is the combined federal and state tax applicable for each state. Column four is the sum total of the above which provides the price for the product ready for retail delivery.

Following are 1966 averages for 55 cities in cents per gallon, computed from first-of-the-month prices, as compiled in NPN (National Petroleum News). Prices are for regular-grade (house-brand) gasoline.

SUMMARY OF ACTIVITIES

Space allows for only a general summary of the duties and activities of the Board of Equalization. They fall into four general fields.

- (1) Administration and supervision of all state tax laws.
- (2) Equalization as required in Section 15, Article 12, Montana Constitution.
- (3) Assessment of all intercounty property such as railroads, power lines, pipelines, airlines, and telephone lines. Also the assessment of net proceeds of mines and oil production.
- (4) Assessment and collection of inheritance, income, and many license taxes.

Taxable value of all property assessed by the State Board approximates 23% of the entire state taxable valuation. Sixty-one such assessments must be made and total assessed value amounted to \$517,506,661. These intercounty properties assessed by the Board are:

Railroads	7	Pipelines	10
Power Lines	3	Airlines	4
Telephone Lines	5	R. E. A.	23
Telegraph Lines	1	R. T. A.	8

License taxes administered by the Board are:

Personal Income Tax	Cigarette Tax and License
Corporation License Tax	Electrical Energy Tax
Inheritance Tax	Natural Gas Tax
Gasoline License Tax	Telegraph Company Tax
Freight Line Tax	Contractors License Tax
Sleeping Car Tax	Chain Store License Tax
Oil Production Tax	Vermiculite License Tax
Coal License Tax	Metal Mines License Tax
Carbon Black License Tax	Telephone License Tax
Cement and Plaster License Tax	Express Companies License Tax
Contractors Gross Receipts Tax	Certificate of Number (Boats)

Various other expenses such as Administrative Costs and other information pertinent to the Highway Department will be covered by the report of the Highway Department.

Tax increased July 1, 1949 to six cents.

Tax increased April 1, 1955 to seven cents on gasoline, nine cents on diesel fuel.

Tax decreased January 16, 1958 to six cents on gasoline.

Tax increased July 1, 1967 to six and one-half cents.

Taxation of Mines

At the time of the constitutional convention, in 1889, Montana's only industries worthy of mention were metal mining and stock raising, with mining greatly predominant. Because of the peculiar character of mining property, and in recognition, perhaps, of the practical impossibility of intelligently valuing our fissure vein mines, the delegates to that convention wrote into the constitution the "net proceeds clause" providing a special method for the assessment of such property. Under this provision and subsequent legislation, mines are assessed by the county assessors at the price paid the Government therefor, and on improvements and machinery of all kinds. If the surface ground has a separate and independent value for some other purpose it is assessed at its full value for such other purpose. Net proceeds are assessed by the State Board of Equalization, such assessment being based on verified statements filed with the board by the producers and certified to the counties in which the mines are situated. The taxable value of the assessment at the price paid the Government (\$2.50 to \$20.00 per acre) and of the net proceeds assessment is 100% of the full and true value. The taxable value of the machinery, structures and appurtenances is 30% of full and true value. These assessments all take the regular levies applicable to the taxing district in which the property is located.

Coal mines, oil properties, lime rock, gypsum and other quarries and mines producing precious and semi-precious gems or stones, or any other valuable mineral or minerals, all come within the provisions of the net proceeds law and are assessed as outlined above.

Royalties

Oil and gas royalties are assessed in the name of the operator who is jointly liable with the royalty owner for the payment of the tax. The tax is payable by the operator, who may withhold an estimated amount so paid from current royalty payments. Other royalties are assessed direct to the royalty owner. Each royalty is valued at the amount received by the owner, and is assigned to Class 1, taxable at 100%.

Mines License Tax

In addition to the taxes paid on the assessments listed above, coal mine operators are required to pay directly to the state treasurer a license tax of five cents per ton on all coal mined in excess of 50,000 tons annually; oil producers pay 2% of the value on the first 450 barrels of all oil produced and 2½% on the balance of production; cement manufacturers pay four cents per barrel; plaster manufacturers pay five cents per ton, and metal mines operators pay annually a tax based on the market value of the metals produced. Coal, oil, cement, and plaster license taxes are treated more fully in another part of this report.

Metal Mines License Tax

The amount of metal mines license tax is determined by the State Board of Equalization from verified reports filed by the metal producers, and in this connection the board has authority to examine the books of smelters and reduction works if it deems such examination necessary or advisable. The first \$100,000 of gross production in each year is tax exempt; the next \$150,000 or portion thereof pays a tax of ½ of 1%; the next \$150,000 or portion thereof pays a tax of ¾ of 1%; the next \$100,000 or portion thereof pays a tax of 1%, and all over \$500,000 pays a tax of 1¼%.

In arriving at the market value of the metals, average quotations in Engineering and Mining Journal are used as a base, and from these average prices, the Montana value is determined. The same average prices govern all assessments. The amount payable by the metal producers in 1967 was \$1,200,734. In 1968 the amount payable is \$622,239. All of this revenue is credited to the general fund of the state.

**TITLE 84, CHAPTER 3, REVISED CODES OF 1947 AS AMENDED BY CHAPTER 178, LAWS OF 1951,
CHAPTER 88, LAWS OF 1957, CHAPTER 103, LAWS OF 1961 AND CHAPTER 239, LAWS OF 1961.
CLASSIFICATION OF TAXABLE PROPERTY**

84-301. (1999) CLASSIFICATION OF PROPERTY FOR TAXATION. For the purpose of taxation the taxable property in the state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims, after deducting only the expenses specified and allowed by section 84-5403; also where the right to enter upon land, to explore or prospect, or dig for oil, gas, coal or mineral is reserved in land by any person or corporation, the surface title to which has passed to another, the assessor

and the state and county boards of equalization shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring, or prospecting for gas, oil, coal or minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All household goods and furniture, including clocks, musical instruments, sewing machines, wearing apparel of members of the family, and all personal property actually used by the owner for personal and domestic purposes, or for the furnishing or equipment of the family residence; all agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines and outfits used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds except mobile homes, boats and all water craft, harness, saddlery and robes.

Class Three. Livestock, poultry and the unprocessed products of both; stocks of merchandise of all sorts, together with furniture and fixtures used therewith, except mobile homes, and all office or hotel furniture and fixtures.

Class Four. (a) All land, town and city lots, with improvements, and all trailers affixed to land owned, leased, or under contract of purchase by the trailer owner, manufacturing and mining machinery, fixtures and supplies, except as otherwise provided by the Constitution of Montana, and except as such property may be included in Class Five or Class Seven.

(b) Mobile homes without regard to the ownership of the land upon which they are situated, except those held by a distributor or dealer of mobile homes as part of his stock in trade.

Class Five. (a) All moneys and credits, secured or unsecured, including all state, county, school district and other municipal bonds, warrants and securities, without any deduction or offset; provided, however, that the terms "moneys and credits" as herein used shall not embrace the moneyed capital employed in the banking business by any banking corporation or individual in this state.

(b) All poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by co-operative rural electrical and co-operative rural telephone associations organized under the laws of Montana.

(c) All unprocessed agricultural products either on the farm or in storage, irrespective of whether said products are owned by the elevator, warehouse or flour mill owner or company storing the same, or any other person whomsoever, and excepting livestock and poultry and the unprocessed products of both.

Class Six. Property formerly included in this class is now classified by section 84-308 of the Revised Codes of Montana, 1947.

Class Seven. (a) All new industrial property. New industrial property shall mean any new industrial plant, including land, buildings, machinery and fixtures which, in the determination of the state board of equalization, is used by a new industry during the first three (3) years of operation not having been assessed prior to July 1, 1961 within the state of Montana. New industry shall mean any person, corporation, firm, partnership, association or other group which establishes a new plant or plants in this state for the operation of a new industrial endeavor, as distinguished from a mere expansion, reorganization, or merger of an existing industry or industries. Provided, however, that new industrial property shall be limited to industries that manufacture, mill, mine, produce, process or fabricate materials, or do similar work in which capital and labor are employed and in which materials unserviceable in their natural state are extracted, processed or made fit for use or are substantially altered or treated so as to create commercial products or materials; and in no event shall the term new industrial property be included to mean property used by retail or wholesale merchants, commercial services of any type, agriculture, trades, or professions. And provided further, that new industrial property shall not be included to mean property which is used or employed in any industrial plant which has been in operation in this state for three (3) years or longer. Any person, corporation, firm, partnership, association or other group seeking to qualify its property for inclusion in this class shall make application to the state board of equalization in such manner and form as may be required by said board.

(b) Freeport merchandise. Freeport merchandise means those stocks of merchandise manufactured or produced outside this state which are in transit through this state and consigned to a warehouse or other storage facility, public or private, within this state, for storage in transit prior to shipment to a final destination outside the state, and which have acquired a taxable situs within the state.

Stocks of merchandise do not lose their status as freeport merchandise because while in the storage facility they are assembled, bound, joined, processed, disassembled, divided, cut, broken in bulk, relabeled or repackaged.

Any person, corporation, firm, partnership, association, or other group seeking to qualify its property for inclusion in this class shall make application to the state board of equalization in such manner or form as may be required by said board.

The state board of equalization shall establish standards, rules and regulations for the guidance of county assessors and assessing freeport merchandise.

Class Eight. Any improvement on real property valued at not more than fifteen thousand dollars (\$15,000), which is owned and actually occupied by a widow, with or without minor or dependent children, or by:

- (1) a widow sixty-two (62) years of age or older, whether with or without minor dependent children, or
- (2) a widower sixty-five (65) years of age or older, whether with or without minor dependent children, or
- (3) a widow with minor or dependent children regardless of age, or
- (4) a recipient of retirement benefits not exceeding one hundred fifty dollars (\$150) per month, if single, or two hundred fifty dollars (\$250) per month if married. Provided such owner and occupier is not gainfully employed to such an extent as would render him or her ineligible for social security benefits, should he or she be otherwise eligible for such benefits, and does not have income from all sources, excluding retirement benefits as mentioned in (4) hereinabove, in excess of one thousand five hundred dollars (\$1,500) per year. Provided, further, that one who applies for classification of property under this class must make an affidavit before the county assessor of the county in which said property is located, on a form as may be provided by the state board of equalization supplied without cost to the applicant, as to his income, if applicable, as to his retirement benefits, if applicable, or, as to his marital status, if applicable, and to the fact that he or she actually occupies such improvements with right of the county welfare board to investigate the applicant, on the completion of the form, as to answers given on the form. Provided, further, that the value of said property shall not increase during the life of the recipient of retirement benefits or widow or widower covered under this class.

Class Nine. All property not included in the eight (8) preceding classes.

84-302. (2000) BASIS FOR IMPOSITION OF TAXES. As a basis for the imposition of taxes upon the different classes of property specified in the preceding section, a percentage of the true and full value of the property of each class shall be taken as follows:

Class 1. One hundred per cent of its true and full value.

Class 2. Twenty per cent of its true and full value.

Class 3. Thirty-three and one-third per cent of its true and full value.

Class 4. Thirty per cent of its true and full value.

Class 5. Seven per cent of its true and full value.

Class 6. Forty per cent of its true and full value.

Class 7. Seven per cent of its true and full value.

Class 8. Twenty per cent of its true and full value.

Class 9. Forty per cent of its true and full value.
